Outdoor Education and New York State P-12 Science Learning Standards Professional Development Workshop

This outdoor learning experience for school librarians at Connetquot River State Park can include a forest hike, fish hatchery visit, and/or pond ecosystem exploration. There will be opportunities to create hands-on examples of science activities that relate to classroom/school library learning, along with connections to literary works in fiction and informational texts. In addition, a focus on the NYS Science Learning Standards and how this shift in instruction will affect the needs of teachers and students will be discussed.

Please bring a bagged lunch. Appropriate shoes, clothing, hat, bottled water and sunscreen are highly recommended.

Date: July 17, 2018
Time: 9:00 am - 2:00 pm
Place: Connetquot River State Park
